REMI WEISLINGER

Web developer, activist and computer security enthusiast

I'm a front/back end web developer passionate, but I'm also interested in anything when it comes to programming or new technologies.

As an activist committed to net neutrality, privacy, and software open-sourcing, I often help – financially or technically – associations like La Quadrature du Net, Electronic Frontier Foundation, Mozilla, or even ProtonMail.
BIRTH DATE	NATIONALITY	ADDRESS	CITY
DEC 15, 1995	**FRENCH**	**PRIVATE**	**PRIVATE**
